COMMUNIST INDEX

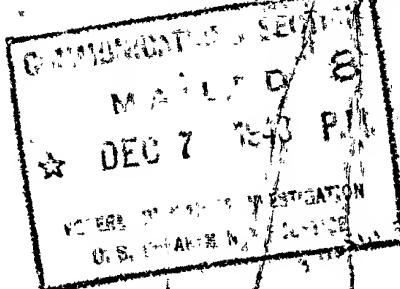

Internal Security - C
(Phoenix file 100-103)

Reurlet dated November 19, 1948, relative to the maintenance of the Communist Index.

As you have noted, SAC Letter No. 57 dated April 10, 1948, instructs you to prepare a Communist Index which was to be coincident with the review of the files in your office for the purpose of ascertaining available information with respect to individual Communists. Consequently, the index prepared by your office should include those individuals on whom there is information in your files indicating they are known Communist Party members. There will, of course, be additions and deletions from this Index as information comes to your attention reflecting the names of new members of the Party or when subjects in the Index alienate themselves from the Party or remove themselves from your field division. Such information will come to your attention from time to time through your confidential informants and other sources of information.

Consequently, in the situation you cite in your referenced letter, the Bureau feels that if the file shows the subject to have Party membership in 1947 and there is no evidence of activity in 1948, he should be included in the Index providing the file shows no information indicating alienation from the Party.

Your suggestion that the Bureau authorize the field to maintain the Communist Index in three sections has been considered and it is felt that such a breakdown of the index would not be warranted in light of the problems that would arise in keeping such an index in a current and workable condition. This would be particularly true in those offices where the index will include several thousand cards.

~~Security Investigations of Individuals~~~~Security Index~~

SAC Letter #57 dated April 10, 1948, instructed each Division to prepare a Communist index to be maintained in alphabetical order. In complying with the instruction, no problem exists with respect to the inclusion in this index of individuals on whom we have current evidence of membership or activity. On the other hand, there exists another category of cases concerning individuals on whom there is evidence of membership in 1947, no evidence of activity in 1948, but no positive evidence that the Communist affiliation has definitely ceased.

The Phoenix Division desires to obtain the Bureau's decision relative to the inclusion or elimination of individuals in the latter category in the Communist Index.

Also, in connection with the Communist Index, the Phoenix Division believes that a real purpose would be served in maintaining an index of former Communist party members in our territory. Such a list would provide CNDI prospects and further provide a readily available list of possible witnesses in connection with Communist party activity.

It is desired to suggest that the Bureau authorize the field to maintain the Communist Index in three sections (arranged alphabetically within each section):

Section I All Communists within the Division on whom there is evidence of current membership or activity.

Section II Doubtful cases where there is evidence of membership or activity in the previous year, but no such evidence for the current year.

Section III Former members - individuals for whom there is no evidence of activity or membership in the current year or the preceding year.

COMMUNIST INDEX

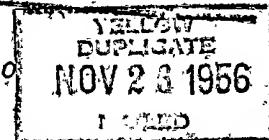

Re SAC Letter 56-56 (I) dated October 30, 1956, containing instructions with regard to the reconstruction of the Communist Index.

In the past, field office files have been stamped "CI" on the front cover to designate those subjects of main case files on whom Communist Index cards existed. In order that file covers can definitely reflect those cases in which a Communist Index card is prepared under existing instructions set out in referenced SAC Letter, you should arrange to have the main case files stamped with the letters "RCI."

Stamps for this purpose should be purchased locally.

SUBJECT: COMMUNIST INDEX
PHOENIX DIVISION

Re SAC Letter No. 56-56 dated 10/30/56 (L).

This is to advise that a review of the Communist Index of the Phoenix Office has been made in accordance with instructions set out in referenced letter.

This review has been completed and the Phoenix Division Communist Index presently totals 64. This sum is made up of 45 individuals formerly on Security Index who have been removed since April, 1955, plus 19 other individuals who fall within the designated criteria.

Communist Index cards have been made up on these individuals and appropriate files marked "RCI". The remaining Communist Index cards have been destroyed as instructed by the Bureau.

Re Phoenix letter to the Bureau, dated 12-27-56.

Upon re-checking the Communist Index of the Phoenix Office, it was determined that there are 61 subjects currently on the said index.

As pointed out in referenced letter, the index is made up of 45 subjects formerly on the Security Index and since the submission of that letter one more subject has been added. Instead of the 19 other individuals included on the index it has been noted that 4 duplicate cards were made up inadvertently and that figure should be 15 individuals who fall in the designated criteria.

The above is being brought to the Bureau's attention in order that the correct number of 61 subjects on the Communist Index of the Phoenix Office may be noted.
